

HUMAN COMPUTER INTERACTION

TARUN KUMAR ACHARYA

MYJIO PROTOTYPE

This a project made on Microsoft Sketchflow. This is a prototype under construction of the mobile version of the MYJIO website.

ABOUT MICROSOFT SKETCHFLOW:

SketchFlow, part of Blend for Visual Studio 2013, revolutionizes the speed and efficiency with which you can demonstrate a vision for an application. SketchFlow provides an informal and quick way to explore, iterate and prototype user interface scenarios allowing you to evolve your concepts from a series of rough ideas into a living breathing prototype that can be made as real as a particular client or project demands.

MYJIO PROTOTYPE

Created on 1/12/2018

SUPPORT

The support screen features a header with a hamburger menu icon, the Jio logo, and the text 'Quick Pay'. Below the header, the text 'HOW CAN WE HELP YOU ?' is displayed in purple. There are two input fields: the first contains the placeholder text 'ENTER YOUR MESSAGE HERE (DELETE THIS AND WRITE)' and the second contains 'ENTER YOUR JIO USER ID OR NUMBER HERE'. Below the input fields, the text 'LIVE CHAT COMING SOON' and 'CALL US AT - 1860-893-3333' is shown in red. To the right of this text is a 'SUBMIT' button. At the bottom right, there is a 'HOME' button.
